Structure

Sensor tip

Connection cable
Pressed in sensor tip

Shrink tube

End sleeves

## **Type designation**

Enclosed temperature sensor (surface sensor) with long-distance line in 3 wire circuit.

Technische Data

Temperature range	:	-50°C...+180°C
Connection cable	:	3x0,22mm² with Teflon (FEP) insulated.
		Transition sleeve encapsulated with epoxy resin.
		Protective conductor connected to the transition sleeve.
Length	:	1000mm, other lengths by request
Sensor tip	:	50mm, stainless steel

Certificates

Exactness-class	:	B DIN IEC 751 (Standard)
